Sociedade Africana
para Transfusão Sanguínea

*'AfSBT is making a Positive Difference to
National Blood Programmes in Africa'*

TO THE MEMBERS OF THE Africa Society for Blood Transfusion NPC

March 2018

ROUNDROBIN ELECTRONIC APPROVAL REQUIRED BY MEMBERS

**The purpose for the electronic approval is due to the urgency in obtaining
Taxation Authorities Approval for Public Benefit Tax status.**

EXPLANATION:

• **The Board of The Africa Society for Blood Transfusion NPC (AfSBT) seeks the approval for the proposed Amendments to the Memorandum of Incorporation (MOI) of the company from our Members. Our current MOI requires a minimum of 75% of all Members approval for the changes to be effective.**

These amendments have been recommended to the Board by the AfSBT attorneys in order for the MOI to be aligned to the Tax Act in its registered country, namely South Africa. This will enable AfSBT to apply for the Tax Public Benefit Organisation status which if successful brings enormous Taxation benefits to AfSBT. This is key for AfSBT's financial sustainability as a non-profit company.

Your assistance in this matter will be greatly appreciated as it expedites our strategy and sustainability.

**President of the Board
On behalf of the AfSBT BOARD
April 2018**
